

DRUPALCAMP  
POLAND/2020

# SPONSORSHIP OFFER

# About DrupalCamp Poland

Encouraged by the success of the previous editions, we organize DrupalCamp Poland for **the eighth time**. It's the biggest conference focussing on Drupal CMS/CMF, held in Poland **since 2012**.

## For whom?

The programme of the conference includes sessions relating to:

- Drupal
- Symfony framework
- PHP
- Site building
- E-marketing
- Project management
- Business
- Drupal community

## ... and much more!

The conference programme has been arranged to provide every participant with what they really need – both people making first steps in Drupal, advanced developers and business managers interested in the system.

## International conference

DrupalCamp Poland isn't just a local event. We're reaching abroad to connect with **Drupalers from around the world**. Most of the lectures are given in English and we invite speakers and sponsors from a variety of countries.

### Where are our attendees from?

## Last editions

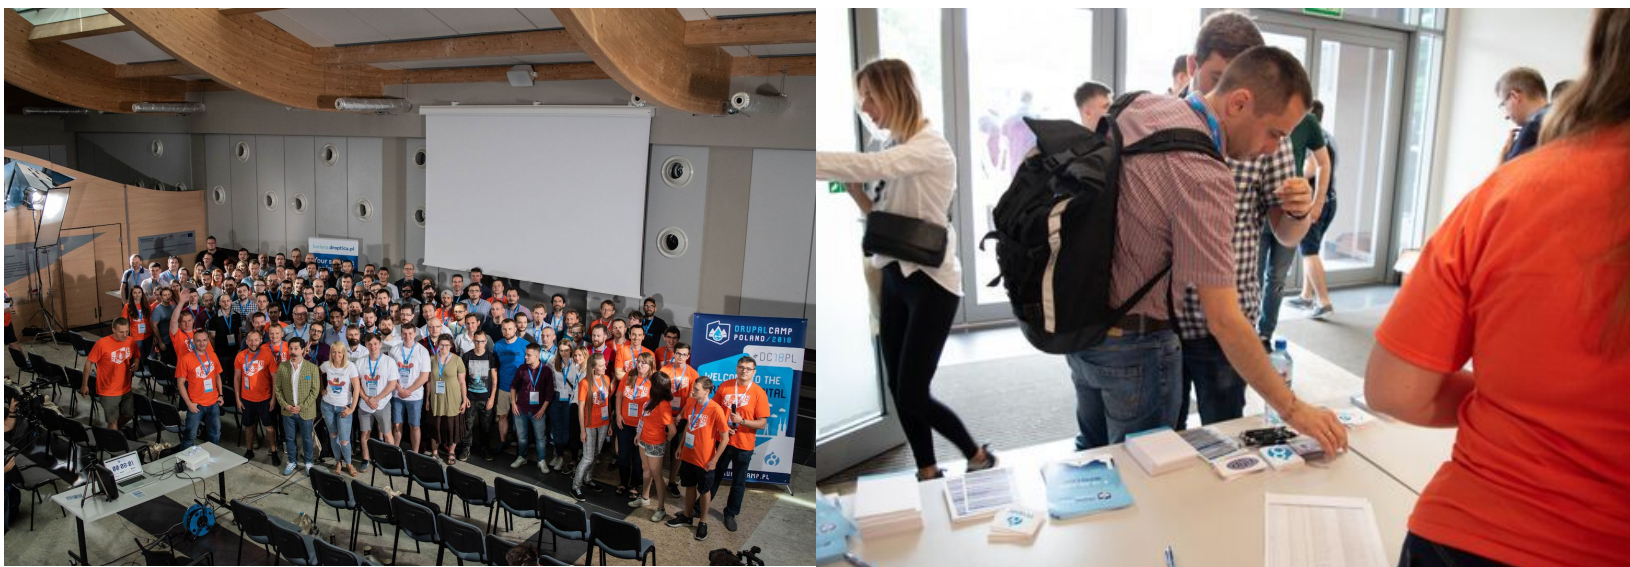

Year by year we use our experience and ideas to make the event better. We increase the number of lectures and introduce new forms of learning to make the conference more interesting for both new and experienced users of Drupal.

## Plans for 2020

We doubled the number of volunteers and time intended to plan the upcoming edition. We'd like to organize even more lectures and increase the number of workshop hours. And most important, the target for 2020 is to sell **200 tickets** for the attendees.

**With your help, we can make it happen!**

- offer something for everyone.

# What's in it for you and your company?

If the content is a King, then its visibility is a Queen. And we gladly grant you the favours of Her Internet Majesty.

---

First of all, **your logo will be visible all the time**. We'll put it on our **"Sponsors" page** and, for the most generous supporters, **on the main page** too, so it's literally one of the first things that every attendee see.

Each sponsor will receive **the mentions on Facebook and Twitter posts** that are sent during the event. What's more, we'll put your name or the name of your company not in one, but **two e-mails** that will be delivered to the attendees before the conference.

Again, we'll enable the most generous sponsors to use those e-mail as a way to **connect with the best Drupal experts** there are in Poland. **Invite them for the interview** to fill the positions in your company or **schedule a chat** over the coffee or the beer, whichever you prefer.
